

ALW SERIES

Low angle ultra diffuse ringlights

ALW21.01

Low angle ringlight. Light is emitted towards the center of the ring system with a medium inclination, which makes the lighting be uniform and avoids brightness while allowing the highlighting of edges, cracks and deep cavities. Moreover, this light avoids reflection, specially in bright elements. In longer Lighting Working Distances (LWD) it works as a ringlight and in shorter LWD works as a darkfield.

Technical specifications¹

| Lighting model | ALW2922A |
|--|--|
| | |
| Dimensions | 307x292x15 |
| Inner Ø | 223 |
| RWD (mm) | <350 |
| Weight | 550g |
| IP rating | IP40 |
| Mounting holes | (x8)M516 |
| Connection (Type C/S) | 2P aerial male connector. L= 150mm. PIN 1 = +24V ±3% PIN 2 = 0V |
| Power cable (Not-included) | VCB Series |
| Modifiers ² | 45) |
| Accessories ³ | |

⁽⁶⁾ Values of maximum instantaneous consumption of 'Type i' lighting systems in Powered mode [Strobe mode / Continuous mode]

⁽¹⁾ Environmental specifications and iconography legend in additional annex Z1.4 and Z2 respectively.

⁽²⁾ Prior to manufacturing optional modifications in standard lighting systems. Please, consult the code before ordering (additional annex Z2.1).

⁽³⁾ Accessories are not-included. More information in accessories section.

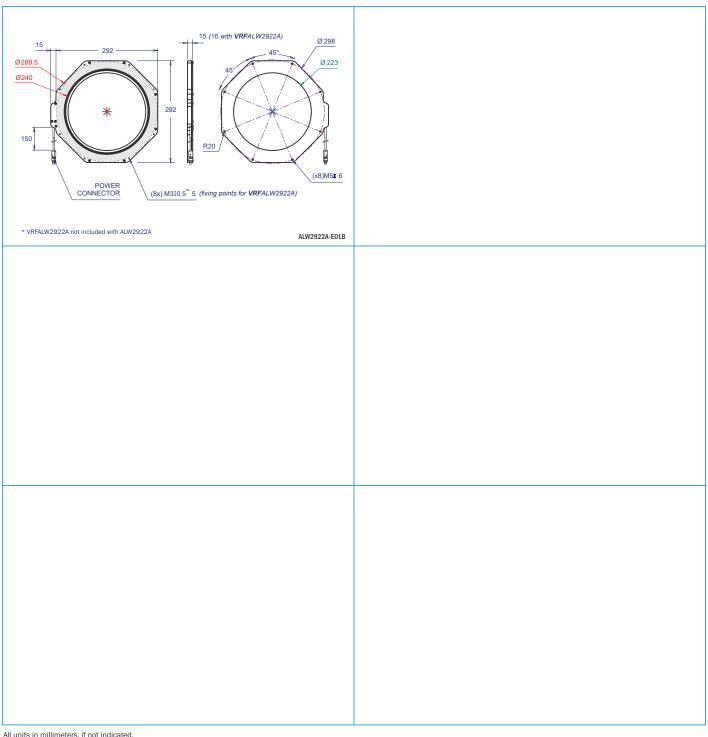

⁽⁴⁾ iBlueDrive control input wiring specifications in additional annex Z1.2.

⁽⁵⁾ Bear in mind that consumption table is only to be used as a guide. To refer to real values, please, consult product label when purchasing.

Z2X21.01

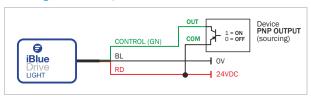

► Z2.1 - iBlueDrive control input wiring

All iBlueDrive products come together with a quick-start guide for connection and working conditions. Refer to iBlueDrive Manual for extended information.

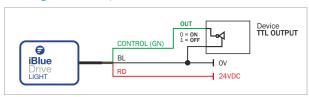

NPN wiring for strobe or ON/OFF mode

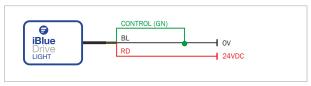

PNP wiring for strobe or ON/OFF mode

TTL wiring for strobe or ON/OFF mode

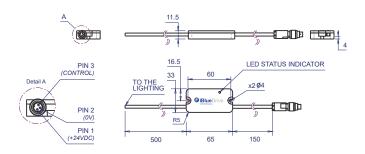

Wiring for continuous mode

➤ Z2.2 - iBlueDrive inline

iBlueDrive inline is the driver for iBlueDrive technology integrated as a box of 65x33mm to the cable that goes from the lighting system to the connector. It is used when iBlueDrive driver can not be integrated on chassis. See diagram:

WARNING!: In continuous and powered mode, clamp driver to a metal surface for heat dissipation. In Strobe mode is not required, but recommended.
